Current Groups

“The Crafting Collective”

Come and get crafty! Together, we transform Urban First Aid into a crafter’s workshop, share our skills with each other, and create new life with our crafts.

Bring your tools, materials, and creative spirit!

“Experiencing Herstory and History”

In stories live the seeds of Imagination. As we picture and feel these stories in our souls, they are given radiance and new life.

Bring a (short) story from herstory/history to share with the group. Read it at home, then come and share it as a story with us. Together, we will experience this story and receive its deeper wisdom.

“Inner Development Meets Outer Participation”

When we study, we collect information. When we live among others in the world, we are met with experiences. What is born in the space between our inner development and outer participation?

In this group, we share our experiences of participation with the outer world as students of inner development. Come discuss what the meeting point between the inner and outer worlds can be.

“Rhythm and Sound Journeys”

Bring an instrument, a voice, a word, a sound, and together we’ll hop on board that sound and take it for a journey into the uni-verse of tone and harmony!

As a group, we listen deeply to the sounds we each bring, and then explore what harmony (or dissonance) these sounds can create. Get ready for fun and exploration!

“Technosophy”

We live among the creations of humankind, which we shaped by taking or receiving the gifts of Nature. Have you thanked Nature for her gifts which we have shaped into the world we live today?

In this group, we ask questions regarding the human being living in today’s age, surrounded by the collective creations of humankind. What are the impulses that stir the human desire to create? What is the wisdom to be learned from our participation as creators? Are we passive in our course through the created world, or are we active participants?

Prepare to ask the hard questions and consider them as a group, supporting one another in deep inner development.

Join our Facebook Group: Goldenwood Free Culture School

Just show up! No need to RSVP!

All our groups are completely free; there is no requirement to exchange money for your participation.
